RAJPAL AGRICULTURAL MACHINERY PVT. LTD.

Chaff cutter blades

Five straight chaff cutter blades cover the core range. Most are 2.5–8 mm, which fits the planned 3 mm belt-ground process.

#	Product	Photo	L (mm)	W (mm)	T (mm)	Weight (kg)	Size options
1	Chaff cutter straight blade		337	100	5, 8	1.32 / 2.12	13", 14"
2	Chaff cutter 9.6"		242	55	6	0.63	—
3	Chaff cutter 13" straight		337	71	6	1.13	—
4	Chaff cutter 16" straight		446	100	5, 8, 10, 13	1.75 / 2.80 / 3.50 / 4.55	—
5	Chaff cutter straight (shuri)		337	71	2.5, 3	0.46–0.81	13", 14", 15", 17", 19"

Baler blades

Four baler blades, mostly 8.5–10 mm thick, closer to disc-thickness work.

#	Product	Photo	L (mm)	W (mm)	T (mm)	Weight (kg)	Notes
6	New Holland baler blade		350	75 / 88	8.5 / 10	1.75 / 2.42	Two widths
7	New Holland big baler blade		—	—	—	—	Long bar + small square-hole knife segments; specs to confirm
8	Shaktiman baler blade model 22		335	100	10	2.63	Angled end
9	Chicory (chokrya) baler machine blade		—	—	—	—	Two-piece; specs to confirm

Maize, shredder, slasher and toka blades

#	Product	Photo	L (mm)	W (mm)	T (mm)	Weight (kg)	Notes
10	Maize (makka) chaff cutter blade 12"		318	100	10	2.50	Slotted holes

#	Product	Photo	L (mm)	W (mm)	T (mm)	Weight (kg)	Notes
11	Maize (makka) chaff cutter blade 16"		405	100	10	3.18	Slotted holes
12	Maize harvester blade 22"		559	70	6	1.84	—
13	Shaktiman maize shredder blade		—	—	—	—	Specs to confirm
14	Shaktiman maize shredder C-head		—	—	—	—	Formed C-channel head; specs to confirm
15	Rotary slasher / straw reaper blade		310	100	3, 4	~0.55 / ~0.73	Tapered
16	Toka blade — Haramba thresher		410	132	3	~0.7 (blank 1.27)	Curved; head 10", 11", 12"
17	Toka blade — kutti machine		410	132	3	~0.7 (blank 1.27)	Curved; head 10", 11", 12"

Weights are steel weight at 7.85 g/cm³ from length × width × thickness, one figure per thickness option in the order listed. Holes and bevels make finished parts 3–8% lighter. Toka and slasher blades are estimated from their shape; the toka blank (410 × 132) weighs 1.27 kg, which matters for pricing because of cutting scrap. Shuri range covers 13"–19" at 2.5–3 mm.

Notes to check

- 9.6" chaff cutter: catalogue title says 7 mm, spec table says 6 mm — confirm
- Get dimensions for New Holland big baler, chicory baler, Shaktiman shredder blade and C-head
- Photos are reference images; replace with Rajpal's own product photos before sharing with customers
